Subject: Application for the Position of Graphic Designer

Dear Hiring Manager,

I am writing to express my keen interest in the Graphic Designer position at your organization. With over 20 years of experience in the 2D and 3D simulation industry particularly in the marine and defense sectors, I bring a deep blend of technical skill, creative vision, and project leadership.

Currently based in Delhi, India, I have worked extensively at ARI Simulation (a subsidiary of Zen Technologies Limited), leading the design and development of real-time 3D environments, training interfaces, and user-focused design systems. My expertise covers the entire simulation and gaming pipeline, including 3D modeling (3ds Max), texturing, lighting & shading, GUI/UX design, and creative direction using Adobe Creative Cloud tools.

Academically, I hold an MBA in Business Studies from Pondicherry University, along with a Diploma in Future Arts with a specialization in Lighting & Shading from an Autodesk-authorized training center in New Delhi. Additionally, I am certified in Advertising for Print, which strengthens my foundation in design communication and visual strategy.

I am particularly drawn to Europe for its emphasis on innovation, clean design, and collaborative work environments. I align strongly with Europian values user-centric thinking, minimalism, and respect for work-life balance. I am open to relocation and confident in my ability to contribute meaningfully to your creative team from day one.

Please find my resume attached. I would welcome the opportunity for a personal discussion to further explore how I can add value to your projects and team.

Thank you for considering my application.

Warm regards,
Amrendra Kumar Amar
